

ShurKote One Coat Stucco Warranties

The following warranty list allows the **Builder, Design Professional, General Contractor and Applicator** to select the best warranty for the system being applied and the desired protection needed.

System Components for Warranty	Duration	Number
	2 Year	No. 124
1. Weather Resistant Barrier	3 Year	No. 1234
2. Cementitious Base Coat*		
3. ShurPrime (base coat primer)	5 Year	No. 1235
4. Acrylic Finish Coat		
5. Elastomeric Finish Coat	7 Year	No. 12356
6. Approved Sealants**		
7. Tensil Strength Coat***	10 Year	No. 12357

- Base coat can be either ShurKote or UltraKote. Other cementitious base coats may be approved for a coatings warranty only.
- ** See the specifications or call technical service at UltraKote.
- *** This is an adhesive base and embedded reinforcing mesh applied over the cementitious base coat after it has cured.

As the duration of the system warranty increases the requirements for that specified system also increase. To receive the additional warranty protection it is required that additional precautions as well as additional responsibilities must be taken.

For all questions please call the local distributor of ShurKote Products and they will either answer your questions or they will refer you to the technical department at UltraKote Products, Inc.
