#### Section 4 First-Aid Measures

**Emergency and First Aid Procedures**

**Inhalation:** Remove casualty to fresh air and keep at rest. If breathing is irregular or stopped, administer artificial respiration. In case of inhalation, consult a doctor immediately and show him packing or label.

**Eyes:**

IF IN EYES: Rinse cautiously with water with the eyelids open for a sufficient length of time. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation continues, then get medical advice/attention immediately. Protect uninjured eye.

**Skin Contact:**

IF ON SKIN: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

**Ingestion:**

If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

**Most Important symptoms/effects, acute and delayed:**

- Eye Irritation
- Eye damages
- Skin irritation
- Erythema

**Indication of any immediate medical attention and special treatment needed:**

In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

#### Section 5 Fire Fighting Measures

**Extinguishing Media:** Use carbon dioxide, or water spray when fighting fires involving this material.

**Fire Fighting Methods and Protection:** Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.

**Fire and/or Explosion Hazards:** Do not inhale explosion and combustion gases. Burning produces heavy smoke.

**Hazardous Combustion Products:**

- Explosive properties: N.A.
- Oxidizing properties: N.A.

**Special protective equipment and precautions for fire-fighters:**

Use suitable breathing apparatus. Collected contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely.
Section 6  Accidental Release Measures

Steps to Take in Case Material Is Released or Spilled:
Wear personal protection equipment. Wear breathing apparatus if exposed to vapors/dusts/aerosols. Provide adequate ventilation. Use appropriate respiratory protection. See protective measures under section 7 and 8. Ventilate the contaminated area. Suitable material for taking up: absorbing material, organic, sand. Wash with plenty of water.

Section 7  Handling and Storage

Handling:
Avoid contact with skin and eyes, Inhalation of vapors and mists. Exercise the greatest care when handling or opening the container. Use localized ventilation system. Don't use empty container before they have been cleaned. Before making transfer operations, assure that there aren't any incompatible material residuals in the containers. Contaminated clothing should be changed before entering eating areas. Do not eat or drink while working. See also section 8 for recommended protective equipment. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

Storage:
Keep dry. Keep container tightly closed & upright when not in use to prevent leakage.

Storage Code:
