Eyes: Wash immediately with water with the eyelids open for a sufficient length of time. Remove contact lenses, if present and easy to do. Continue rinsing. If irritation continues, then get medical advice/attention immediately. Protect uninjured eye.

Skin Contact: Immediately take off all contaminated clothing. Areas of the body that have - or are only even suspected of having - come into contact with the product must be rinsed immediately with plenty of running water and possibly with soap. Wash thoroughly the body (shower or bath). Remove contaminated clothing immediately and dispose of safely.

Ingestion: If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

Most Important symptoms/effects, acute and delayed: N.A.

Indication of any immediate medical attention and special treatment needed: In case of accident or unwellness, seek medical advice immediately (show directions for use or safety data sheet if possible).

Section 5  Fire Fighting Measures

Extinguishing Media:
Fire Fighting Methods and Protection: Use carbon dioxide, or water spray when fighting fires involving this material. Firefighters should wear full protective equipment and NIOSH approved self-contained breathing apparatus.

Fire and/or Explosion Hazards: Do not inhale explosion and combustion gases. Burning produces heavy smoke.

Hazardous Combustion Products: Incomplete combustion of dried product can yield low molecular weight hydrocarbons, carbon monoxide, and carbon dioxide.

Explosive properties: Not Determined.

Oxidizing properties: Not Determined.

Special protective equipment and precautions for fire-fighters: Use suitable breathing apparatus. Collected contaminated fire extinguishing water separately. This must not be discharged into drains. Move undamaged containers from immediate hazard area if it can be done safely.

Section 6  Accidental Release Measures

Steps to Take in Case Material Is

Wear personal protection equipment. Wear breathing apparatus if exposed to vapors/dusts/aerosols. Provide adequate ventilation. Use appropriate respiratory protection. See protective measures under section 7 and 8. Ventilate the contaminated area.
**Released or Spilled:** Suitable material for taking up: absorbing material, organic, sand. Wash with plenty of water.

### Section 7 Handling and Storage

**Handling:** Avoid contact with skin and eyes, Inhalation of vapors and mists. Exercise care when handling or opening the container. Use localized ventilation system. Don't use empty container before they have been cleaned. Before making transfer operations, assure that there aren't any incompatible material residuals in the containers. Contaminated clothing should be changed before entering eating areas. Do not eat or drink while working. See also section 8 for recommended protective equipment. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.

**Storage:** Keep dry. Keep container tightly closed & upright when not in use to prevent leakage. Protect from freezing.

**Storage Code:** N.A.
